Highwater Ethanol Plant, LLC, (HWE) is an ethanol facility in Redwood County, approximately 1.5 miles west of Lamberton, MN. HWE became fully operational in 2009. HWE has an excellent efficient water usage rate and has previously achieved a zero discharge at the facility.

University of Minnesota's Southwest Research and Outreach Center (SWROC) by Lamberton, MN has ongoing research projects on drainage water management and drainage ditch management that show promise with water quality protection while balancing production and conservation goals. Get the latest updates on these topics!
